FOOTNOTE

123 Australian Model **146** Rev2 cables can only be used with stock throttle body (or carburetor where applicable) and Rev2 throttle. **185** For use with stock throttle body. Stock reel is 36.5 mm. **IMPORTANT** - The Rev2 throttle does not have the starter and kill switch wiring or switches that are built into your stock throttle assembly. Use of the Rev2 Throttle requires an after market kill switch and starter button assembly not included in kit. Please use 11-0103 Handlebar Stop/Start Switch, Kawasaki A for this application. Rev2 Kits have cables specifically designed for fitment on specific models, but the Rev2 throttle itself is not model specific. Therefore, in some situations, the Rev2 kit may not be a direct bolt on installation due to space limitations on the stock handlebar. In some installations, it may be necessary to move other control components on the stock handlebar, shorten the Rev2 throttle tube and grip, install longer after market handlebars, or possibly all of the above. It is up to the end user to determine the best method for fitment on their motorcycle, and ensure that the Rev2 kit is installed properly and with the correct clearances for safe operation. Installation should be done by a qualified mechanic and carefully checked for proper function. **Warning:** Improper installation could result in great bodily injury or death.

FOOTNOTE

139 01-0094 does not have anti grip rub flange. Recommend installing anti friction washer between grip and throttle housing. Washer readily available through your favorite local motorcycle store. May also purchase from Yamaha dealers. Yamaha OEM p/n : 3Y1-26249-00-00. 01-0094 length is 4 mm less than oem throttle tube.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations.

KX 100	0100		1995 - 2009	08-0529	08-0482	

FOOTNOTE

056 With breaker points **122** NOTE: Kawasaki updated the bleeder screw from 10 mm to 8 mm on some models. Physically check your caliper bleeder screw to determine if the bleeder screw has an 8 mm or 10 mm hex size. If the bleeder screw is 8 mm, purchase part number 08-0482 8 mm mini bleeder. **149** Protector cap not used with this application.

KRF 750 FI	0750	203	2009 - 2013		08-0482	

FOOTNOTE

122 NOTE: Kawasaki updated the bleeder screw from 10 mm to 8 mm on some models. Physically check your caliper bleeder screw to determine if the bleeder screw has an 8 mm or 10 mm hex size. If the bleeder screw is 8 mm, purchase part number 08-0482 8 mm mini bleeder. **203** This vehicle uses a wet brake system for the rear brakes. 08-0482 is intended for servicing rear master cylinder hydraulic fluid only.
