INSTRUCTIONS

MOTION PRO Dowel Pin Puller Set P/N 08-0603

Step 1: Select the correct size collet for the dowel pin you are going to remove

Step 2: Tighten the 6 mm bolt on the collet to lock it firmly onto the dowel pin

Step 3: Select the slide hammer, puller rod, or open end wrench for pulling the dowel pin

Note: For frozen pins use the slide hammer

Maximum torque for 6 mm bolt is 7 lb/ft
