FOOTNOTE

009 Use with stock carb(s) requires carb cap(s) (01-0023) & adjuster(s) (01-0013). Eliminates TORS system & stock carb cap(s). Requires idle kit (08-0045) when used with stock carb(s) (sold separately). Warning - Disables the T.O.R.S. system and will not shut down engine in case throttle sticks open. A stuck throttle could result in uncontrolled acceleration and great bodily injury or death. This product is intended for closed course racing by expert riders only. Improper installation could result in great bodily injury or death. User assumes all responsibility for proper installation and use of this product. **011** For use with stock throttle **016** Fits stock thumb throttle **017** Fits handlebar mounted hot start lever

FOOTNOTE

009 Use with stock carb(s) requires carb cap(s) (01-0023) & adjuster(s) (01-0013). Eliminates TORS system & stock carb cap(s). Requires idle kit (08-0045) when used with stock carb(s) (sold separately). Warning - Disables the T.O.R.S. system and will not shut down engine in case throttle sticks open. A stuck throttle could result in uncontrolled acceleration and great bodily injury or death. This product is intended for closed course racing by expert riders only. Improper installation could result in great bodily injury or death. User assumes all responsibility for proper installation and use of this product. **081** Warning: Installation of this kit requires drilling and tapping the carburetor body. Installation of this kit requires a high degree of skill and should only be done by an experienced mechanic with proper equipment (a drill press or mill is recommended). Improper installation will damage your carburetor. Motion Pro is not responsible for damage to carburetor resulting from misuse or improper installation. **142** Includes carb cap P/N 01-0039. Cap is attached to cable. **144** Rev2 Kits have cables specifically designed for fitment on specific models, but the Rev2 throttle itself is not model specific. Therefore, in some situations, the Rev2 kit may not be a direct bolt on installation due to space limitations on the stock handlebar. In some installations, it may be necessary to move other control components on the stock handlebar, shorten the Rev2 throttle tube and grip, install longer after market handlebars, or possibly all of the above. It is up to the end user to determine the best method for fitment on their motorcycle, and ensure that the Rev2 kit is installed properly and with the correct clearances for safe operation. Installation should be done by a qualified mechanic and carefully checked for proper function. Warning: Improper installation could result in great bodily injury or death. **146** Rev2 cables can only be used with stock throttle body (or carburetor where applicable) and Rev2 throttle.

FOOTNOTE

142 Includes carb cap P/N 01-0039. Cap is attached to cable. **144** Rev2 Kits have cables specifically designed for fitment on specific models, but the Rev2 throttle itself is not model specific. Therefore, in some situations, the Rev2 kit may not be a direct bolt on installation due to space limitations on the stock handlebar. In some installations, it may be necessary to move other control components on the stock handlebar, shorten the Rev2 throttle tube and grip, install longer after market handlebars, or possibly all of the above. It is up to the end user to determine the best method for fitment on their motorcycle, and ensure that the Rev2 kit is installed properly and with the correct clearances for safe operation. Installation should be done by a qualified mechanic and carefully checked for proper function. Warning: Improper installation could result in great bodily injury or death.

146 Rev2 cables can only be used with stock throttle body (or carburetor where applicable) and Rev2 throttle. **181** For use with stock throttle body. Stock reel is 33.4 mm. **IMPORTANT** - The Rev2 throttle does not have the starter and kill switch wiring or switches that are built into your stock throttle assembly. Use of the Rev2 Throttle requires an after market kill switch and starter button assembly not included in kit. Please use 11-0109 Handlebar Stop/Start Switch, Yamaha A for this application. Rev2 Kits have cables specifically designed for fitment on specific models, but the Rev2 throttle itself is not model specific. Therefore, in some situations, the Rev2 kit may not be a direct bolt on installation due to space limitations on the stock handlebar. In some installations, it may be necessary to move other control components on the stock handlebar, shorten the Rev2 throttle tube and grip, install longer after market handlebars, or possibly all of the above. It is up to the end user to determine the best method for fitment on their motorcycle, and ensure that the Rev2 kit is installed properly and with the correct clearances for safe operation. Installation should be done by a qualified mechanic and carefully checked for proper function. Warning: Improper installation could result in great bodily injury or death.

FOOTNOTE

010 Fits stock carb with stock carb caps only **018** Warning - This kit disables the T.O.R.S. system and will not shut down engine in case throttle sticks open. A stuck throttle could result in uncontrolled acceleration and great bodily injury or death. This product is intended for closed course racing by expert riders only. Improper installation could result in great bodily injury or death. User assumes all responsibility for proper installation and use of this product. **071** Fits Stock Carb/throttle body; 4WD models require 11-0030 4x4 Switch Relocation Kit, sold separately. **079** For use with stock throttle bodies/carburetors and Revolver throttle assembly only. **IMPORTANT** - The Revolver VR throttle does not have the starter and kill switch wiring or switches that are built into your stock throttle assembly. Use of the Revolver VR Throttle requires an aftermarket kill switch and starter button assembly (pn 11-0098) not included in kit. Revolver Kits have cables specifically designed for fitment on specific models, but the Revolver throttle itself is not model specific. Therefore, in some situations, the Revolver kit may not be a direct bolt on installation due to space limitations on the stock handlebar. In some installations, it may be necessary to move other control components on the stock handlebar, shorten the Revolver throttle tube and grip, install longer aftermarket handlebars, or possibly all of the above. It is up to the end user to determine the best method for fitment on their motorcycle, and ensure that the Revolver kit is installed properly and with the correct clearances for safe operation. Installation should be done by a qualified mechanic and carefully checked for proper function. Warning: Improper installation could result in great bodily injury or death. **088** Revolver cables can only be used with stock throttle body (or carburetor where applicable) and Revolver throttle.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations.

FOOTNOTE

127 Does not include hot start lever mount bracket where applicable. We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations. **138** We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. FOOTNOTE

127 Does not include hot start lever mount bracket where applicable. We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations. **138** We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. FOOTNOTE

127 Does not include hot start lever mount bracket where applicable. We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations. **138** We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations. **166** Remove hot start lever including hot start mount plate, from perch when used with applications that do not require a hot start lever.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations.

FOOTNOTE

138 We recommend careful inspection of the pivot bolt when replacing a lever and that you replace the pivot bolt and lock nut if there are any signs of wear or if the prior lever suffered any impact damage. We also recommend that you replace the lock nut, if applicable, anytime the lever is removed. Pivot bolt and lock nut must be installed and tightened properly as recommended by the manufacturer of your motorcycle. Please remember to lubricate the pivot bolt per the factory service manual recommendations. **175** Please use 11-0109 Handlebar Stop/Start Switch, Yamaha A to replace switches on stock throttle assembly in conjunction with 01-2738 Rev2 Throttle kit for this application. **176** Please use 11-0110 Handlebar Stop/Start Switch, Yamaha B to replace switches on stock throttle assembly in conjunction with 01-2782 Rev2 Throttle kit for this application.

FOOTNOTE

118 Caution: The 2006-2012 YZFR6 factory Yamaha service manual states the following: "To protect the end of the crankshaft, place an appropriate sized socket between the flywheel puller set's center bolt and the crankshaft." Please refer to your YZFR6 factory Yamaha service manual for additional information regarding installation and removal of the flywheel. Yamaha service manuals can be purchased from any authorized Yamaha dealer.
